Representative Sample Letter (please modify accordingly)

Dear _____

I am writing to express concern about an observation, today,_____, between the hours of _____ in _____ County. Numerous aircraft flew overhead disseminating substantial dispersant. I documented a clear sky become riddled with long trails of particulate matter, which turned into plums, and then into unusual cloud like formations.

This is one of a number of days I have observed and documented this phenomenon: clear skies, distinct flight patterns, aircraft spraying dispersant, followed by a change in cloud cover and temperature.

What I observed today is not new. It has been happening for the past decade. Research suggests there may be multiple purposes for these actions and numerous stakeholders. As my representative, please clarify the purpose of this activity and identify the stakeholders (agencies, companies, and individuals) by responding to the following questions:

1. Who was responsible for the high altitude mission today, _____, over _____ and surrounding neighborhoods? {Photographed}
2. What chemical compounds or materials were in the dispersant sprayed today? {Photographed}
3. Why is this occurring over _____?
   (I am aware it is happening in other parts of the US and in other countries)
4. Who are the specific stakeholders?

My most immediate concern is human health: yours, mine, and that of our families. Additionally, I am concerned for the health of the planet, unquestionably in peril. In spite of some claims that this observable phenomenon is correcting the crisis, it does not appear to be doing so.

I understand the FAA is in charge of the airspace where this is occurring, thus one of the responsible agencies. The particulate in these operations settles into the air, water, and soil of your constituents, making areal dispersion ripe for collective action and an issue to be addressed on both a federal and local level.

What I witnessed today is not normal, it is not natural, and we as global citizens deserve an explanation.

Thank you for taking the time to research this matter and for your years of devoted public service. I look forward, to receiving your answers to my questions.

Respectfully,

_____
